

# SPECIAL SOLUTIONS

---

*BUILT-IN SOLUTION, MOBILE SOLUTION,  
SYSTEM SOLUTION, MARINE VERSIONS*

## JOKER

### *Built-In Edition with condensation hood*

Thanks to our built-in edition the JOKER can be installed in standard kitchen cupboards. The unique Multi-Eco-Condensation Hood creates a pleasant indoor climate and condenses up to 90 % of steam. With its loadable pull-out rails the built-in JOKER provides easy access for service and maintenance.

---

## JOKER

### *Mobile Edition*

For all occasions where there is no fixed water supply Eloma offers the mobile edition of the JOKER. It comes with an integrated fresh water and waste-water tank for maximum flexibility. The filling levels of the water tanks are conveniently, intuitively and user-friendly shown on the display.

---

## BACKMASTER

### *Mobile Edition*

For all occasions where there is no fixed water supply Eloma offers the BACKMASTER with watertank. This BACKMASTER has an integrated water tank. An acoustic signal and a display-indication show the refilling information. The water tank filling is permanently monitored.

## KOMBIMIX STATIONS

### *Compact units and table top units*

Our customer-specific KombiMix stations offer you the greatest possible flexibility in individual combination of combi steamers, baking ovens, convection ovens and condensation hoods. All compact units respectively all table top units are fully compatible with each other so almost any design is possible for the KombiMix Stations.

## OCEAN EDITION

### *Table top units and floor standing units*

Whether on the high seas or in the depths of the ocean, our equipment is adaptable to the extreme conditions on ships or in submarines. Special adjustments ensure your safety even in stormy waters. All functions can be used - for easy handling and the best cooking and baking results in your galley or restaurant. There are also marine versions for mix stations available. All combis meet the requirements of the United States Public Health (USPH) and have the following certifications: NSF, UL, ETL, GS, VDE
