10. Energy optimization connection (for

electrical devices only)

11. Potential-free contact (optional) (for

electrical devices only)

12. Gas line connection (for gas devices only) Dimension:

36 3/8 inch / 925 mm Width: Depth: 31 3/4 inch / 805 mm Height: 66 1/2 inch / 1690 mm Weight: 408 lbs / 185 kg Number of sheet pans: 10 x full size 18" x 26" Number of Hotel pans: 10 x full Steam Pan 12" x 20" x 2" Distance between rails: 2 5/8 inch / 67 mm

Electrical: (Version 1):

Voltage: 208 - 240 VAC

Phases: 3 phase

Factory recommended

52 amp - 59 amp Amperage:

Maximum fuse rating: 70 amp 18 kW - 24 kW Connected load:

Electrical: (Version 2):

Voltage: 480 VAC Phases: 3 phase

Factory recommended

Amperage: 22 amp Maximum fuse rating: 30 amp Connected load: 18 kW

Hz: 50 or 60

ELECTRIC UNITS:

NO PLUG, ONLY CABLE PROVIDED (max. length 6 feet) UNLESS SPECIFIED (DEDICATED CIRCUIT REQUIRED) DO NOT CONNECT TO A G.F.I. OUTLET.

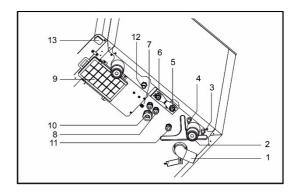

Certification: ETL, ETL Sanitation

Protection (water tight): IPX 5

Heat emission:

5800 Btu/Hr - latent 4060 Btu/Hr - sensitive

Noise level: < 70 dB (A)

Standard features

8 modes of operation from 86°F to 572°F with an adjustable humidity between 0% to 100%

- MT Technology Genuine MultiTouch display with ultrafast response and high resolution. Intuitive and precise operating by means of sliding, swiping or scrolling.
- Quick Set Puts all settings in the exact position with your fingertip. Changes or adds temperature and time settings without interrupting the current cooking process on the display.
- 4 Unique Start Screens manual, climatic^{MT}, favorite, program list
- 9 Menu Groups Pasta, Desert/cakes, Bread/rolls, Poultry, Meat, Fish/seafood, Vegetables, Side dishes, Banqueting/Rethermalization
- 9 modes of operation from 86°F to 572°F with an adjustable humidity between 0% to 100% Vario-Steaming, Steaming, Forced Steaming, Combi-Steam Cooking, Convection, LT-cooking (cook & hold), Delta-T Cooking, Baking
- Favorite Customized listing for fully automatic programs.
- Images Saves individual product images.
- Last 20 Function display allows selection of the 20 most recently used cooking processes including manual and programmed settings for immediate restart.
- **Multi Cooking** automatically selects programs with the same cooking method and displays up to 15 timers interchangeably and simultaneously on screen.
- Climate Control Patented Climatic*MT controls temperature and moisture level. Active humidification and/or dehumidification. Dry heat and humidity in combination with temperature and humidity graphically displayed.
- Climatic^{eMT} simultaneous setting of temperature and humidity to the exact degree and percentage, temperature (°C/°F), air humidity, time, core temperature, humidity quantity, pause times
- **Program capacity -** An integrated 9 Menu group display including a library with up to 400 recipes with 20 steps each and 400 product pictures.
- Quick Mode An operating concept especially adapted to the needs of a multi unit operator. It allows using only set recipes and no manual change.
- Multi Connect Easy administration of multiple units with ProConnectMT software and advanced communication interfaces such as LAN or USB.
- Preconfigured start time for automatic start at a freely selected time, up to 24h
- Cook and Hold Slow cooking from 86°F to 248°F.
- Delta-T cooking cooking processes regulated in accordance with the core temperature
- Regeneration storable special programs for regeneration of banquets, plates and hotel pans
- Steptronic* automatic program sequences using variable combination of cooking steps
- Core temperature control for multi-point probe for precise measurement of the core temperature from 32 °F to 210 °F, control of cooking procedures and explain correction in case of false core temperature probe readings.
- Visual Alarm interior lights blinking at the end of cooking program
- HACCP log book automatic internal recording and display of HACCP/LMHV data
- Half Energy Feature (e/2) Reduced electrical load. Ideal in peak times.
- SPS* Steam Protection System for prevention of burns using active steam extraction at the end of the cooking
 process
- **Heat Exchanger -** Heat recovery through Multi-Eco System. Pre-heats incoming water for on-demand steam generation. Highly water and energy efficient. Exceeds drain temperature standards for most municipalities.
- autoclean^{®MT} Patented fully-automatic technology. 100% process-controlled for guaranteed hygiene.
 Reduced consumption of water and rinsing agents quick clean in 15 minutes. Color-coded indicator of care
 product shows remaining quantities. No manual cool-down required. No direct employee contact with
 cleaning agents. Biodegradable cleaning/rinsing agents. Delayed start time possible.
- 5 fan speed levels in 5 increments or preconfigured fan timer function or pulsing, fan auto reverse for even browning
- Manual steam injection at any time. No pre-heating or stand-by required. Significant energy and water savings.
- Steam Extraction Steam extracted via patented Steam Protection System (SPS*) before program ends. Reduces danger of steam burns. Reduces excess humidity in the kitchen environment. Recirculation system reuses steam for maximum energy efficiency.
- Active Temp automatic preheating or cooling of the cooking chamber to set temperature
- Cleaning Alert adjustable from 5-100 hours
- Maintenance Alert adjustable from 1-12 months
- Safety door lock 2-step door lock, to reduce the risk of burning due to steaming during opening the door
- Integrated- self-retracting hand shower with adjustable spray functions and automatic rewind
- Sensor- controlled steam cooling for reducing the steam emission out of the exhaust air pipe

Description

The unit is a boilerless, self-cleaning, combi oven designed for steaming and convection cooking either separately, sequentially or combined. The combi oven has live-steam system that generates steam directly into the cooking chamber, for faster heating and re-heating without requiring a stand-by mode. An award winning Multi-Eco system simultaneously pre-heats incoming water and cools outgoing condensate to reduce energy and water consumption. The oven fits 10 full size sheet pans or 10 steam table pans.

Construction:

- Constructed to withstand temperature range from 86° to 572°F and humidification from 0% to 100%.
- Hygienic cooking chamber with coved corners, seamless welding. Interior and exterior housing of chrome nickel steel CrNi 18 10, BS 304 S15, AISI 304.
- Tempered door glass (with hinged double panes for easy cleaning) with lock-in-place positions, ventilated door, removable door gaskets & integrated drip tray.
- Quick release safety door lock for single-handed operation.
- Automatic fan break when door opens by contact-free magnetic front size switch.
- Integrated, external hand shower, with automatic return and shut off for use with door opened or closed.
- Bright interior lighting with halogen lamps integrated in the door, for easy exchange.
- Exhaust and/or seal integrated in drain fixed connection in accordance with national and international regulations.
 Sensor controlled, two-stage cool down water condensation (max. discharge temperature 176 °F).
- Split water connections for hard and soft water.
- Hinged control panel easy service access from the front.
- Rack can be easily removed without tools and has a pan slide stop.
- Manufactured according to quality management system EN ISO 9001.
- IPX 5 Water-tight rating.

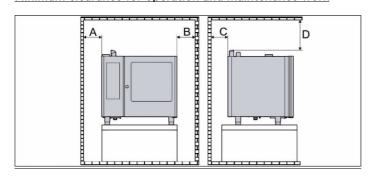

Options

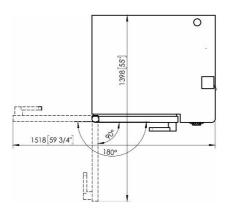

- LAN interface
- External core temperature probe for external connection
- Connection for energy improvement
- Right hinged door with control panel to left side
- Heat shield

System accessories

- Multi-Eco condensation hood
- ProConnect programming software
- Ocean version
- Vario insert rack for Hotel pans only
- Mobile tray racks, insert racks
- SmokeFit smoker unit (WORKS ONLY FOR UNITS WITHOUT CONDENSATION HOOD)
